LEVEL 3 | 12 CREDITS

Designed for “shiny” four-wheel-drive vehicles, this two day course covers hazard awareness, driving a four-wheel drive in an off-road and on-road environment, and water crossings.

This is not an extreme course, but will provide an appropriate level of challenge and experience to prepare new drivers. Participants are required to supply their own vehicle, which must have a current Warrant of Fitness and registration. Preferably there will be only one participant per vehicle.

If you have a current full New Zealand driver’s license, you are eligible to take Four Wheel Drive Training.
