

# FOUNDATION ROPE RESCUE

**SAR 413 DEMONSTRATE FOUNDATION ROPE TECHNIQUES  
FOR LAND SEARCH AND RESCUE**

**SAR 414 PERFORM LOW ANGLE ROPE RESCUE TECHNIQUES  
FOR LAND SEARCH AND RESCUE**

**LEVEL 4 | 12 CREDITS**

This course is intended for all backcountry SAR personnel. It covers safety and efficiently operating rope rescue systems and stretcher handling in a low angle environment.

Knots anchors and pulley systems suitable for use on slopes of up to 30 degrees are explored. The use and construction of edge kits is covered along with personal safety and hazard management.

This is a two day course with some pre-course work required and no post course work.
