

VERTICAL ROPE RESCUE

**SAR 104 EMPLOY VERTICAL ROPE RESCUE TECHNIQUES
LEVEL 5 | 12 CREDITS**

A course specifically designed for SAR personnel operating in difficult terrain and vertical environments.

Multi point anchor systems, compound pulley systems, vector forces, risk analysis and management and specialist rope rescue systems are all covered. Difficult rescue situations are explored from a theoretical and practical perspective, with and without stretcher bound patients. Working as a rope rescue team member and the various roles involved are explained and practiced.

This 2 day course has some pre course work required but there is no post
