National SAR Support Programme 2022 / 2023¹

Activity	Intent
Leadership and Engagement (2102)	
NZSAR Aviation Workshop	Aimed at SAR aviation operators and those involved in aviation. Opportunity to connect, discuss SAR aviation standards, health and safety, processes, training and for them to share information and lessons and to collaborate.
SAR Coordinators Workshop	Aimed at District Police SAR coordinators, to engage over 1½ days with them. Discuss Sector and NSSP projects, get guidance and advice directly from SAR Coordinators to inform and guide our work programme.
SAR Mutliagency Workshop	Aimed at SAR District staff from Police (DASARC), and 4 x SAR NGOs. Opportunity for cross sector introductions and sector alignment with NZSAR projects, intent and overall direction of travel, and foster interagency collaboration and cooperation.
Marine SAR Workshop	Workshop aimed at Marine SAR operators to engage on operational Marine SAR issues.
Safer Walking / Wander Workshop	LSAR run, NZSAR supported workshop. Aimed to support their Safer Walking / Wander leadership, responsibilities and strengthen the overall system.
Chairs and CE Forum	Annual opportunity for the chairpersons and CE's from the funded SAR NGOs to collectively engage with each other, the Secretariat and Chair NZSAR Council. Intent is to support the review & ID and exploit areas of collaborative opportunity.
Combined Board Meeting	Initial (annual) opportunity for the combined governance boards from the funded SAR NGOs to collectively engage with each other, the Secretariat and Chair NZSAR Council. Intent is to support the review ID and exploit areas of collaborative opportunity.
NZSAR Awards	Annual event to formally recognise excellence in search and rescue, acknowledging dedication, achievements and sacrifices of those involved.
Communications Collaborative	Provide a collaborative and concerted approach to communication strategies (and Tactics) where clear linkages across multi-government agencies exist.
Te ao Māori SAR sector advice	Provision of Te ao Māori advice for the Review and NZSAR. Inclusion of advice into NZSAR strategic documentation
Maritime Transport Act Review	Monitor and consider the impact on the SAR sector of the review
YSAR Strategic Engagement	To build awareness of the functions and value add from each of the sector participants in relation to Youth Development, look at intersection where collaboration can happen and discuss the value-add of YSAR to each agency.

¹ As at July 2023

Individual Training (2103)	
SAR Coordinator revalidation	Develop and implement an agreed skills revalidation training and assessment programme
programme	targeted at SAR coordinators and if resources allow, key IMT members.
Procurement: Multi Agency Training	Procure a training provider for SAR Multiagency course delivery from 1 Jan 2023
provider	
Create a SAR sector training	Develop a Sector wide SAR training framework which articulates the SAR training system, its
framework	component parts, responsibilities mechanisms and funding.
SAR Training Course developments	Develop or enhance SAR training courses as required to support continued SAR training
SAR Training Course Evaluations	Conduct and report on up to 4 x SAR course evaluations. 2 from land SAR training, 2 from
	multi agency training.
SARdonyx training material	Prepare materials and provide suitable training to SARdonyx users for effective usage of the
	system.
Tutor Workshops x 2 NZSAR and	Workshops to focus on: course changes and updates; induction of new tutors; sharing of
LSAR	teaching practice.
GSMEAC for SAR training materials	Develop training materials focused on the GSMEAC briefing process
SAR Managers Course -	Redevelop the SAR Managers course based on the review and recommendations made from
Redevelopment and delivery	the 2021 SAR Managers course
assistance	
RCCNZ SAR aviation SAR	Support RCCNZ with the development of aviation e-learning modules to support air operators
coordination and skills familiarisation	engaging in search and rescue operations coordinated by RCCNZ.
START materials	Update and development of materials for START
Training managers workshop	Workshop for all SAR Training Managers
SAR Governance Groups and	Provide oversight and support to the Training programmes supported by TEC funding.
Programme Advisory Committees	
CGNZ Training Materials	Support Coastguard with the development of the training programme for Radio Operators,
	Incident Management and Air Patrol volunteers.
SAR Technology and Innovation (2)	
Technology strategy implementation,	Facilitate the Innovation in Technology Forum to collaboratively devise, implement and
forum and support	monitor agreed actions and initiatives to assist the New Zealand Search and Rescue Sector
Trials, research, development,	Aimed at identifying and sharing search and rescue innovation and technology information
demonstrations and evaluations	and knowledge across the SAR sector.
SAR C2 software, IMT, Common	Collaborate with the Coordinating Authorities and Search and Rescue partners to research,
Operating Picture	trial and evaluate C2 "common operating picture" C2 software
Mobile phone locating	Explore use of cell phone location technology to locate a certain mobile phone (or phones)
	during SAR operations, and to further implement processes and procedures to locate missing
	persons by mobile phone signals
Drifters	This initiative will help the marine search and rescue organisations better determine search
	areas for persons lost at sea or deceased by developing the application of Cartesian Drifters
	in the nearshore intercurrent zones within New Zealand.

SAR Resource database enhancement	This project to update the NZSAR Resource Database to provide users a functional user- friendly website that provides a visible, up to date information of available resources for the NZ SAR Region
SAR Telecommunications	Explore SAR telecommunications (air, marine and land) to ensure SAR communications are reliable, omnipresent, and available to support the safety and effectiveness of search teams for the success any SAR operation
SAR Readiness & Capability (2105)	
Spontaneous Volunteer Processes	Establish procedures and resources to address the engagement of spontaneous volunteers in SAR operations, in conjunction with Police and RCCNZ
AIS Maintenance - CGNZ	Maintain CGNZ AIS as per the agreed arrangement.
Water rescue responsibilities, capabilities and operational arrangements	NZSAR support for FENZ water rescue and FENZ rescue asset project
Ambulance - SAR MOU	Redevelop the Ambulance - SAR MOU. Monitor once in place
SAR Aviation Future Options	Develop future options for the SAR aviation. Consider accountabilities, cost/funding, system shape, responsibilities, tasking arrangements, standards, training, relationships
SAR Environmental Sustainability	To quantify the sector's current carbon footprint and provide advice on how we might improve sector sustainability.
SAR Volunteerism (2106)	
Volunteer Strategy meetings and workshops	Support volunteer strategy meetings and workshops.
Volunteer Strategy implementation actions	Provide support to implement volunteer strategy actions.
Volunteer Engagement Survey	Support development of a sector-aligned survey to better understand volunteers and volunteer engagement.
Health, Safety & Wellbeing (2107)	
PCBU Advice	Provide support to sector Health, Safety and Wellbeing representatives and CEOs on PCBU responsibilities.
H,S &W Workshop	Workshop aimed at H, S & W personnel from across the SAR sector to engage on issues of relevance.
H,S &W strategic committee and managers meetings	Regular meetings to support H, S & W actions and activities within the SAR sector
Collective training and exercises (2	108)
Support Police 10 x District SAREXs	Provide financial support to each Police District each year to support SAREXs.
SAREX evaluator workshop	The annual workshop brings the SAREX Evaluators together to reaffirm processes and principles, and to further refine SAREX objectives and or lessons development
Nationally Significant SAR Exercise	Development of an exercise to support the New Zealand response capability for a large scale, nationally significant search and rescue event.

	1
District Rauora Exercises x 4	The Rauora exercise provides District senior managers with a table top exercise on their response to a mass rescue scenario. This is designed as a learning experience for each District, with partner agencies supporting.
District NatSigSAR plan preparation	Support the update of District Nationally Significant SAR plans
CaveSAR Sump Rescue Workshop	This specific training exercise is supported to bring together personnel who may be required
and Training	for cave sump rescue. This workshop will support consistent practice and operational
and fraining	alignment and capability
Operational knowledge and support	
SAR Operational forms and	Maintain SAR forms and guidelines, in response to feedback and/or changes in practice.
documents	Manage in association with the Guidelines, Forms and Templates Management Group
Nationally Significant SAR	Update the framework and provide a handbook explaining the guidelines.
Framework and handbook	
Despondent search methodology	Review the processes and methodology applied in a selection of despondent search
and processes	operations.
SARTrack	To invest in LandSARs agreed SARTrack responsibilities and fund a server where information
	is hosted.
NEMA CDEM legislation, plan, guide	Provide input into legislation review.
to plan, Order in Council	
NZSAR Operational Framework	Update the SAR Operational Framework
Beacons Policy	Development of comprehensive distress beacon and SEND policy
Monitoring, Quality and Assurance	(2110)
NZSAR sponsored SAR reviews	Undertake independent system level reviews of SAR operations or system-level issues, in agreement with PNHQ and RCCNZ.
Multi-phase SAROP review	Examine the system capability for multi-phase SAROPs that go beyond the initial phase.
SAR Sector Assurance	Aimed at the NZSAR Council. Develop and implement a system that provides broad based systemic, organisational, and operational assurance that the SAR system is fit for purpose, meets its documented requirements/obligations, is maintained at a suitable level of readiness, and can operate as expected.
SLA & MOU Monitoring, Reporting and Advice	Technical advice to support the SLA's and / or MOU's
Monitoring sector funding (all	Monitor SAR and recreational safety sector funding from all sources. Monitor agency
sources), expenditure and	expenditure and fundraising
fundraising	
Annual Letters of Intent	Produce the annual Letters of Intent for Council
FED Processes	Manage processes and procedures relating to FED funding
Sector Resourcing & Investment (2	111)
IMRF Membership: IMRF	Membership fees for the IMRF in conjunction with RCCNZ.
membership	
Police Business Analyst / Planner	Investment funding agreement for a BA to support Police to establish a longer-term SAR
